

Department of Geomatics Science and Technology

(一) Doctoral Supervisor & Master's Supervisor

NAME: 张勤 Qin Zhang

SEX : Female

Contact: zhangqinle@263.net.cn +86-13709296678

RESEARCH AREA: (1) Geodesy and Geodynamics

(2) High precision data processing and application based on
GNSS and InSAR technologies

(3) Geological disaster monitoring and prediction

(4) BDS/GNSS navigation and positioning

More Information: <http://js.chd.edu.cn/dzgcyhxy/zq102/list.htm>

NAME: 李振洪 Zhenhong LI

SEX : MALE

Contact: zhenhong.li@chd.edu.cn +86-13681421784

RESEARCH AREA:

- (1) InSAR atmospheric correction
- (2) Advanced InSAR time series
- (3) High-rate GNSS data processing
- (4) Remote Sensing
- (5) Continental deformation
- (6) Active faults and earthquakes
- (7) Landslide detection, monitoring and early warning
- (8) Ground subsidence in river deltas
- (9) Structural deformation of dams, buildings, railways, and motorways
- (10) Atmospheric water vapour
- (11) Environmental changes (e.g. Lake water level change, coastal erosion, flood mapping and aerosol monitoring)

MORE Information: http://js.chd.edu.cn/dzgcychxy/lzh103_en/list.htm

NAME: 韩玲 Ling Han

SEX: Female

Contact: hanling@chd.edu.cn, 13008418178

RESEARCH AREA:

- (1) Geological Remote Sensing
- (2) Aerial and Spaceborne Photogrammetry and Remote Sensing
- (3) Remote Sensing Technology and Application
- (4) Remote Sensing for Natural Resources and Environment
- (5) Land Consolidation

More Information: <http://js.chd.edu.cn/dzgcychxy/hl103/list.htm>

NAME:张永志 Zhang Yongzhi

SEX : Male

Contact: zhangyz@chd.edu.cn +86-13991976630

RESEARCH AREA: (1) Crustal deformation

(2) Satellite gravimetry and It's application

(3) InSAR application in monitorring regional deformation

(4) Inversion of fault movement from geodetic observations

More Information: <http://js.chd.edu.cn/dzgcyhxy/zyz/list.htm>

NAME: 赵超英 Chaoying Zhao

SEX : Male

Contact: cyzhao@chd.edu.cn +86-13087559416

RESEARCH AREA:

- (1) Theory of measurement data processing
- (2) SAR and interferometric SAR (InSAR) techniques
- (3) Theory and method of deformation monitoring
- (4) The surface deformation associated with land subsidence, ground fissure, mining-induced collapse, landslide with different trigger factors and geotectonic faults movements
- (5) Inversion of geological hazard mechanism

More Information: <http://js.chd.edu.cn/dzgcychxy/zcy102/list.htm>

NAME: 黄观文 Guanwen Huang

SEX : Male

Contact: guanwen@chd.edu.cn

RESEARCH AREA:

- (1) GNSS orbit determination and positioning
- (2) Low-cost navigation and positioning equipment
- (3) Geological hazard monitoring and early warning
- (4) Geological data mining technology

More Information: <http://js.chd.edu.cn/dzgcyhxy/hgw/list.htm>

NAME:王利 Li Wang

SEX : Male

Contact: wangli@chd.edu.cn 029-82339026

(2) Satellite navigation and positioning
(3) GNSS Remote Sensing
(4) GNSS and SAR for Geological hazards

More Information: <http://js.chd.edu.cn/dzgcyhxy/zsc/list.htm>

NAME:杨成生 Chengsheng Yang

SEX : Male

Contact: yangchengsheng@chd.edu.cn +86-13488265004

RESEARCH AREA:

- 1) InSAR automated intelligent data processing technology;
- 2) Monitoring and stability analysis of glaciers and glacial lake activities;
- 3) InSAR geological disasters large-scale survey and high-precision monitoring;
- 4) Deformation mechanism and model simulation;

More Information: <http://js.chd.edu.cn/dzgcyhxy/yys/list.htm>

NAME: 杨贵军 Yang Guijun

SEX: Male

Contact: guijun.yang@163.com

RESEARCH AREA:

- (1) Agricultural Quantitative Remote Sensing Mechanism and Application
- (2) UAV-based Remote Sensing
- (3) Spatio-temporal fusion for remote sensing data
- (4) Eco-environment Remote Sensing
- (5) Hyperspectral Remote Sensing
- (6) Smart Agriculture

More information:

Prof. Yang Guijun is a distinguished researcher with expertise in agricultural quantitative remote sensing mechanisms and applications. He currently serves as the Director of Remote Sensing Department of the National Engineering and Technology Center for Information Agriculture(NETCIA). Additionally, He holds the prestigious positions of Changjiang Scholar Distinguished Professor and Ph.D. supervisor.

He is also the director of the Key Laboratory of Agricultural Remote Sensing Mechanism and Quantitative Remote Sensing under the Ministry of Agriculture and Rural Affairs, and the editorial board member for the international SCI journal "Remote Sensing" and the editor-in-chief for the special issue of "Frontiers in Plant Science." Prof. Yang Dr. Yang is the principal investigator for the 13th Five-Year National Key Research and Development Project.

Prof. Yang has made significant contributions to innovative research in areas such as crop spectral mechanism modeling and quantitative inversion, remote sensing spatio-temporal fusion and prediction, and field phenotype perception for breeding. He has published 154 SCI/EI papers in renowned international journals, including "Remote Sensing of Environment," "Field Crops Research," and "ISPRS Photogrammetry and Remote Sensing." His scholarly impact is underscored by his consecutive inclusion in the Elsevier China Highly Cited Scholars List since 2020 and acknowledgment in Stanford University's list of the world's top 2% scientists.

Furthermore, Prof. Yang has authored two monographs, been granted one international PCT invention patent, and received authorization for 21 national invention patents. He has also been

recognized with four certificates for new technologies and products, two provincial-level local standards, and five prestigious awards, including the First Prize of the Zhejiang Provincial Science and Technology Progress Award, the First Prize of the Henan Provincial Science and Technology Progress Award, the First Prize of the Ministry of Education Science and Technology Progress Award, the First Prize of the Surveying and Mapping Science and Technology Progress Award, and the Second Prize of the Shennong China Agricultural Science and Technology Award.

NAME: 余琛 Chen Yu

NAME: 席江波 Jiangbo Xi

SEX: Male

Contact: jiangboxi@chd.edu.cn, 15829616473

RESEARCH AREA:

- (1) Remote sensing image processing
- (2) Machine learning and deep learning
- (3) Objects detection, segmentation, and tracking

More Information: http://js.chd.edu.cn/dzgcyhxy/xjb_en/list.htm

NAME: 丁明涛 Mingtao Ding

SEX: MALE

Contact: mingtaoding@chd.edu.cn

RESEARCH AREA:

- 1) Investigate and monitor geological disasters by remote sensing, including landslide, flood, etc.
- 2) Statistics-based remote sensing image processing: classification, registration and change detection.
- 3) Machine learning specifically on the topics of regression analysis, dictionary learning, sparse modeling, and compressive sensing kernel methods.
- 4) The intersection of machine learning and Bayesian statistics focusing on statistical inference with deep learning and deep learning with probabilistic methods.

MORE: <http://js.chd.edu.cn/dzgcyhxy/dmt/list.htm>

Li Xin, male, Doctor of Engineering, graduated from Wuhan University with a major in Geodesy and Survey Engineering. He is currently an Associate Professor and Doctoral Supervisor at Chang'an University. He mainly engages in multi-source fusion navigation and positioning such as Beidou/GNSS/inertial/visual/laser/UWB, as well as the theory and application of autonomous (denied) navigation and positioning for UAVs/robots in complex environments.

In recent years, he has presided over 4 national-level projects including the National Natural Science Foundation of China (Youth/General Program) and sub-projects of the Key Research and Development Program of the Ministry of Science and Technology, and 3 provincial-level projects such as the Shaanxi Provincial Natural Science Foundation, the Key Research and Development Program of Shaanxi Provincial Science and Technology Plan, and the China Postdoctoral Science Foundation General Program. As the first/corresponding author, he has published more than 20 high-level academic papers in renowned domestic and foreign journals such as *Acta Geodaetica et Cartographica Sinica*, *GPS Solutions*, and *IEEE* journals. He has won awards including the First Prize of Science and Technology Progress Award and the Special Prize of Teaching Achievement Award of China Satellite Navigation Association. He serves as a Young Editorial Board Member of the *Journal of Navigation, Positioning and Timing*, and a Reviewer for academic journals such as *GPS Solutions* and *Advances in Space Research*.

非饱和土力学、地质环境和地质灾害。

Professor of Geological Engineering at Chang'an University, China. He had ever been Head of the Department of Geological Engineering and Vice-dean of the School of Geological Engineering and Geomatics. He has been involved in geological research, consulting and education for more than 25 years. He is the author or co-author of more than 200 scientific papers and published the books 《Landslide Disaster Mitigation in Three Gorges Reservoir, China》 and 《Progress of Geo-Disaster Mitigation Technology in Asia》. He sits in the Editorial Board of Geo-environmental Disasters. He is Secretary General of International Consortium on Geo-disaster Reduction. He has consulted for many key projects of urban buildings, highways, hydro-power stations, oil-gas transfer lines and nuclear electric plants in China. His research interests are focused on unsaturated soil mechanics, geo-environment and geo-disaster. In recent years, he has achieved three National Natural Science Funds and a National Basic Research Program which are related to the unsaturated loess permeability and loess geo-disasters.

RESEARCH AREA 研究方向:

倪万魁, 男, 汉族, 宁夏固原市人, 1965 年 11 月出生, 中国民主建国会会员。博士研究生学历, 工学博士, 博硕士研究生导师, 三级教授。长安大学岩土力学与工程研究所所长, 国家注册岩土工程师。主要研究领域为环境工程地质、特殊土力学与工程, 从事城市及重大工程地质环境质量评价、地质灾害预测评价与防治、黄土力学特性、冻土力学与冻融灾害评价及黄土挖填高边坡设计与防护等方面研究。近些年先后主持和参与国家自然科学基金重点及面上项目、国家“973”子项目、科技部科技支撑计划项目、陕西省重点科技攻关和科技统筹创新项目、交通部西部交通建设重大科技攻关项目等十余项; 在国内外核心学术刊物公开发表学术论文 40 余篇, 合作出版专著 6 部; 获得省部科技进步一等奖 2 项、二等奖 3 项和三等奖 3 项; 获陕西省教学成果特等奖 1 项; 获长安大学优秀教师和科技工作先进个人荣誉称号 4 次。

Professor Wan-kui Ni is three-level Professor and doctoral supervisor in Department of Geological Engineering, Chang' An University. He was born from Guyuan City, Ningxia Hui Autonomous Region in November 1965. Prof. Ni had received his PhD degree from Geological Engineering in 1999 at Xi'an College of Engineering and then carried out post-doctoral research at School of Civil Engineering, Chongqing University from 2000 to 2003. At present, he is the director of the Institute of Geomechanics and Engineering, Chang' An University and a National Registered Civil Engineer (Geotechnical). His research interests mainly cover environmental engineering geology and special soil mechanics and engineering, including geo-environmental assessment of cities and major projects, evaluation and

prevention of geological disasters, mechanical properties of loess, mechanical properties of frozen soil, evaluation of Freeze-thaw disaster, design and protection of loess slope, etc. In recent years, prof. Ni has presided over a number of national projects, such as the key project of the National Science Foundation of China, the National Science Foundation of China, sub-project from National Program on Key Basic Research Project (973 Program), National Science and Technology Infrastructure Program, Key Science and Technology Program of Shaanxi Province, Science and technology innovation projects of Shaanxi Province, Major Scientific and Technological Research Project of Western Transport Construction by the Ministry of Communications, etc. He has published more than 40 academic papers in core academic journals and co-authored six books. Prof. Ni has won lots of the provincial and ministerial science and technological progress award, including 2 first prizes, 3 second prizes and 3 third prizes. He has obtained 1 “Teaching achievements special prize of Shaanxi Province” . He also has been successively awarded 4 honorary titles: “Outstanding Teacher of Chang’An University” and “Advanced individuals in scientific and technological work” .

- (3) 交通岩土工程
- (4) 岩土地震工程与抗震减灾

Professor of School of Geological Engineering and Geomatics of Chang'an University, expert with special government allowances of the State Council, mainly engaged in the teaching, research and engineering practice of geological and civil engineering. He has presided over 3 projects of the National Natural Science Foundation of China, 2 National key Research & Development projects, more than 10 major horizontal projects. He has won 5 national science and technology progress awards and provincial and ministerial awards. He has authorized 10 national invention and new practical patents, 3 published books, and published more than 100 journal articles. Train more than 30 master and doctoral students. Deputy director of engineering geology Committee of Chinese Geological Society, Director of Shaanxi geotechnical mechanics and Engineering Society, Editorial board member of Journal of engineering geology (in China). His main research area including: (1) Loess Mechanics and Geohazard Control; (2) Urban Engineering Geology and Underground Space Engineering; (3) Traffic Geotechnical Engineering; (4) Geotechnical Earthquake Engineering.

RESEARCH AREA 研究方向:

- (1) 地裂缝的形成机理及防治对策;
- (2) 特殊岩土の力学性质及其灾害效应。

Professor Quanzhong LU got his Ph.D. in Chang'an University in China, and did post-doctoral research in Institute of Rock and Soil mechanics, Chinese Academy of Sciences and visiting scholar research at Iowa State University for one year. He is now a responsible professor of Geological disaster science and Engineering, doctoral supervisor of Geological Engineering and director of Institute of engineering geology and hydrogeology from School of Geological Engineering and Geomatics, Chang'an University. He is also in charge of Observation and Research Station of Ground Fissure and Land Subsidence, Ministry of Natural Resources. His main research area including the formation mechanism and prevention countermeasures of ground fissures, the mechanical properties of special rock and soil and their disaster effects.

The formation mechanism and Prevention Countermeasures of ground fissures; the mechanical properties of special rock and soil and their disaster effects

RESEARCH AREA 研究方向:

- 1、地震数据和探地雷达数据分析与处理;
- 2、地震信号稀疏表示方法、压缩感知 (CS) ;
- 3、地震全波形反演 (FWI) ;
- 4、高铁地震学与噪声成像等。

- (1) Analysis and processing of seismic data and ground penetrating radar (GPR) data;
- (2) Sparse representation of seismic signals and compressive sensing (CS) ;
- (3) Seismic full waveform inversion (FWI);
- (4) High-speed rail seismology and seismic noise imaging.

NAME: 李宇 Yu Li

SEX : Male

Contact: liyupa@chd.edu.cn, 18729298221

RESEARCH AREA:

- (1) Seismic Methods for Hydrocarbon, Mineral and Geotechnical Exploration
- (2) Seismic Investigation Technologies for Active Faults and Geological Hazards
(e.g., Landslides, Mudflows)
- (3) Urban Surface Wave Imaging Using Active and Passive Sources
- (4) Advanced Processing and Imaging of Complex Seismic Data
- (5) Deep Earth Structure Imaging with Seismic Noise Techniques

More Information: <https://js.chd.edu.cn/dzgcychxy/ly108/list.htm>

NAME 姓名: 刘国华 Liu Guohua

SEX 性别: 男 Male

E-MAIL 邮箱: ghliu@chd.edu.cn

RESEARCH AREA 研究方向:

CRS 地震成像技术

地震数据处理方法与算法

(1) CRS-based seismic imaging methods

(2) Seismic data processing methods and algorithms

MORE 更多信息: <http://js.chd.edu.cn/dzgcyhxy/lgh/list.htm>

NAME 姓名: 赵淑红 Zhao Shuhong

SEX 性别: 女 Female

E-MAIL 邮箱: shzhao@chd.edu.cn, shzhao1@chd.edu.cn

RESEARCH AREA 研究方向:

(1) 地球物理信号处理; (2) 地震资料解释及储层预测。

(1) Seismic signal processing

(2) Seismic signal interpretation and reservoir prediction

MORE 更多信息: <http://js.chd.edu.cn/dzgcychxy/zsh/list.htm>

NAME 姓名: 武银婷 Wu Yinting

SEX 性别: 女

E-MAIL 邮箱: wuyt@chd.edu.cn

RESEARCH AREA 研究方向: (1) 多次波压制及成像研究

(2) 微地震数据处理及裂缝位置反演

(3) VSP 数据处理及解释

(4) 数学形态学方法及应用研究

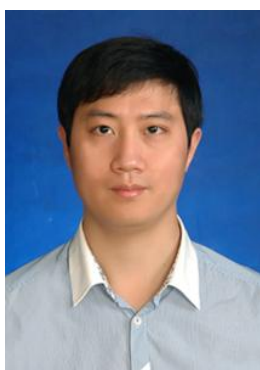

(1) Multiples suppression and imaging research

(2) Microseismic data processing and fracture position inversion

(3) VSP data processing and interpretation

(4) Mathematical Morphological research and applications

MORE 更多信息: <http://js.chd.edu.cn/dzgcyhxy/wyt/list.htm>
